Abstract submission
Until May 30th
Notification of the accepted abstracts
July 10th

Plenary Speakers

Aldo Craievich
University of São Paulo, Brazil
Lei Jiang
Chinese Academy of Science, China
Anders Hagfeldt
Ecole Polytechnique Fédérale de Lausanne, Switzerland

Paul S. Weiss
UCLA, USA
Ifor Samuel
University of S. Andrews, UK
Ado Jorio
Federal University of Minas Gerais, Brazil

Brazilian Materials Research Society
Excellence in the union of science and research in materials technology in Brazil

Support

Partners

Affiliated
Symposia

(Nano)materials and Synthesis

2D Advanced Materials: Carbon/Graphene and NanoComposites

2D Advanced Materials: Carbon/Graphene and NanoComposites

Nanocellulose materials: the keystone for a plethora of multifunctional applications

Symposium on complex advanced materials: from novel superconductors to magnetic nanostructures

Materials science at high-pressure conditions

X Brazilian electroceramics symposium

Theory, Characterization and Modeling

Advanced and Analytical Microscopy and Spectroscopy of Nanostructures and Engineering Materials.

Applications of Neutrons to Materials Research

From atomistic to multiscale modeling: new developments and applications in Materials Science

Surface Science: fundamentals and models.

Surface Science: Recent Developments in Technological Applications

Structure-properties Relationship of Advanced Metallic Materials

Electronics and Photonics

Advanced Materials and Devices for Organic Electronics and Bioelectronics

Plasmonics and Photonics in Nanostructured Materials

Advanced semiconductor and hybrid architectures

Energy and Sustainability

Materials and Devices for Third Generation Solar Cells

Materials for energy conversion and storage

Workshops

University Chapter Symposium

Sustainable development of materials for advanced energy and electronics, extractive materials and transportation products

Nanotoxicology and Nanoregulation: the safe use of manufactured nanomaterials and 2nd Nanoreg Brazil Meeting

Biomaterials and Soft Materials

Surfaces and Interfaces for Medical Applications, Biomaterials and Health

Biomaterials and Devices for Neuroscience

Self-Assembled Biological Structures for Electronic and Photonic Devices and Applications
