

Symposium P

Title:

Advanced Materials – Poster Session

Scope:

This symposium aims to cover advanced materials topics not included in the dedicated symposia of the B-MRS meeting. The symposium comprises only poster contributions. Submitted abstracts will be evaluated by the B-MRS National Committee and accepted according to the same quality criteria of the other symposia.

Session topics:

The symposium is open to students, faculties and industrial researchers with the expectation that the interactions among the meeting attendees will enable new collaborations and introduce new areas for future B-MRS meetings.

Symposium Organizers:

B-MRS National Committee
