

Symposium S: Advanced Materials – Poster Session

Scope of the Symposium:

This symposium aims to cover advanced materials topics not included in the dedicated symposia of the B-MRS meeting. The symposium comprises only poster contributions. Submitted abstracts will be evaluated by the B-MRS National Committee and accepted according to the same quality criteria of the other symposia.

The symposium is open to students, faculties and industrial researchers with the expectation that the interactions among the meeting attendees will enable new collaborations and introduce new areas for future B-MRS meetings.

Symposium Organizers:

- **Profa. Dra. Fabiana Vilela da Mota**

Universidade Federal do Rio Grande do Norte – UFRN

- **Prof. Dr. Maurício Bomio**

Universidade Federal do Rio Grande do Norte – UFRN

- **Prof. Dr. Carlos Alberto Paskocimas**

Universidade Federal do Rio Grande do Norte – UFRN

- **Dr. Vinícius Dantas de Araújo**
